Subject: Crandall UPDES outfall relocation

To: Steve Christensen <stevechristensen@utah.gov> (stevechristensen@utah.gov) <stevechristensen@utah.gov>

Steve, see the below update from Jeff Studenka regarding the timing of the UPDES outfall relocation for Crandall Canyon Mine:

"Regarding the Genwal permit renewal, last week I finally got an update from our folks on when I can expect the Wastload Analysis (WLA) for the new outfall location into Huntington Creek. Not sure if I told you or not, but our longtime WLA guy suddenly retired around the holidays and they've been short handed and playing catch up since. Good news is that I should get the WLA this week and then I can finalize the permit docs and send out for reviews ahead of the public notice. As of now it's looking like June 1st is the best we can shoot for and I will do everything I can to make that happen."
